1. The first part of the book is a history of the city of London, from its foundation to the present time. It is written by a learned and judicious author, and is one of the most valuable works on the subject. It is divided into three parts: the first part contains a general history of the city; the second part contains a history of the city from the reign of Henry II. to the present time; and the third part contains a history of the city from the reign of Henry II. to the present time.

2. The second part of the book is a history of the city of London, from its foundation to the present time. It is written by a learned and judicious author, and is one of the most valuable works on the subject. It is divided into three parts: the first part contains a general history of the city; the second part contains a history of the city from the reign of Henry II. to the present time; and the third part contains a history of the city from the reign of Henry II. to the present time.

3. The third part of the book is a history of the city of London, from its foundation to the present time. It is written by a learned and judicious author, and is one of the most valuable works on the subject. It is divided into three parts: the first part contains a general history of the city; the second part contains a history of the city from the reign of Henry II. to the present time; and the third part contains a history of the city from the reign of Henry II. to the present time.
